Quick Magic Tricks

Hidden shortcuts &
functions

Styles & Formatting

- ✓ **Find the Gallery:** Go to the **Home** tab and locate the large Styles pane.
- ✓ **Modify the Rules:** Right-click on the style named **Normal** and select **Modify**.
- ✓ **Adjust Settings:** Change the font to Times New Roman, size to 12pt, and set double spacing.
- ✓ **Apply Globally:** Click OK. Every paragraph formatted as "Normal" text will instantly update.

Data Structuring

Type your raw data separated by commas, highlight it, and use **Insert → Table → Convert Text to Table** for instant, professional structure.

Student Name	Index Number	Subject Score
Edem	0001	95
Kwaku Mensah	0002	88
Mawuenya	0003	92
	0004	85

Automatic Table of Contents

Steps

- **Apply Headings:** Highlight your chapter titles and click **Heading 1** on the Home tab.
- **Insert the TOC:** Go to the **References** tab, click **Table of Contents**, and select Automatic Table 1.
- **Auto-Update:** When you add new pages, click your TOC and select **Update Table** to instantly refresh page numbers.

Advanced Page Numbering

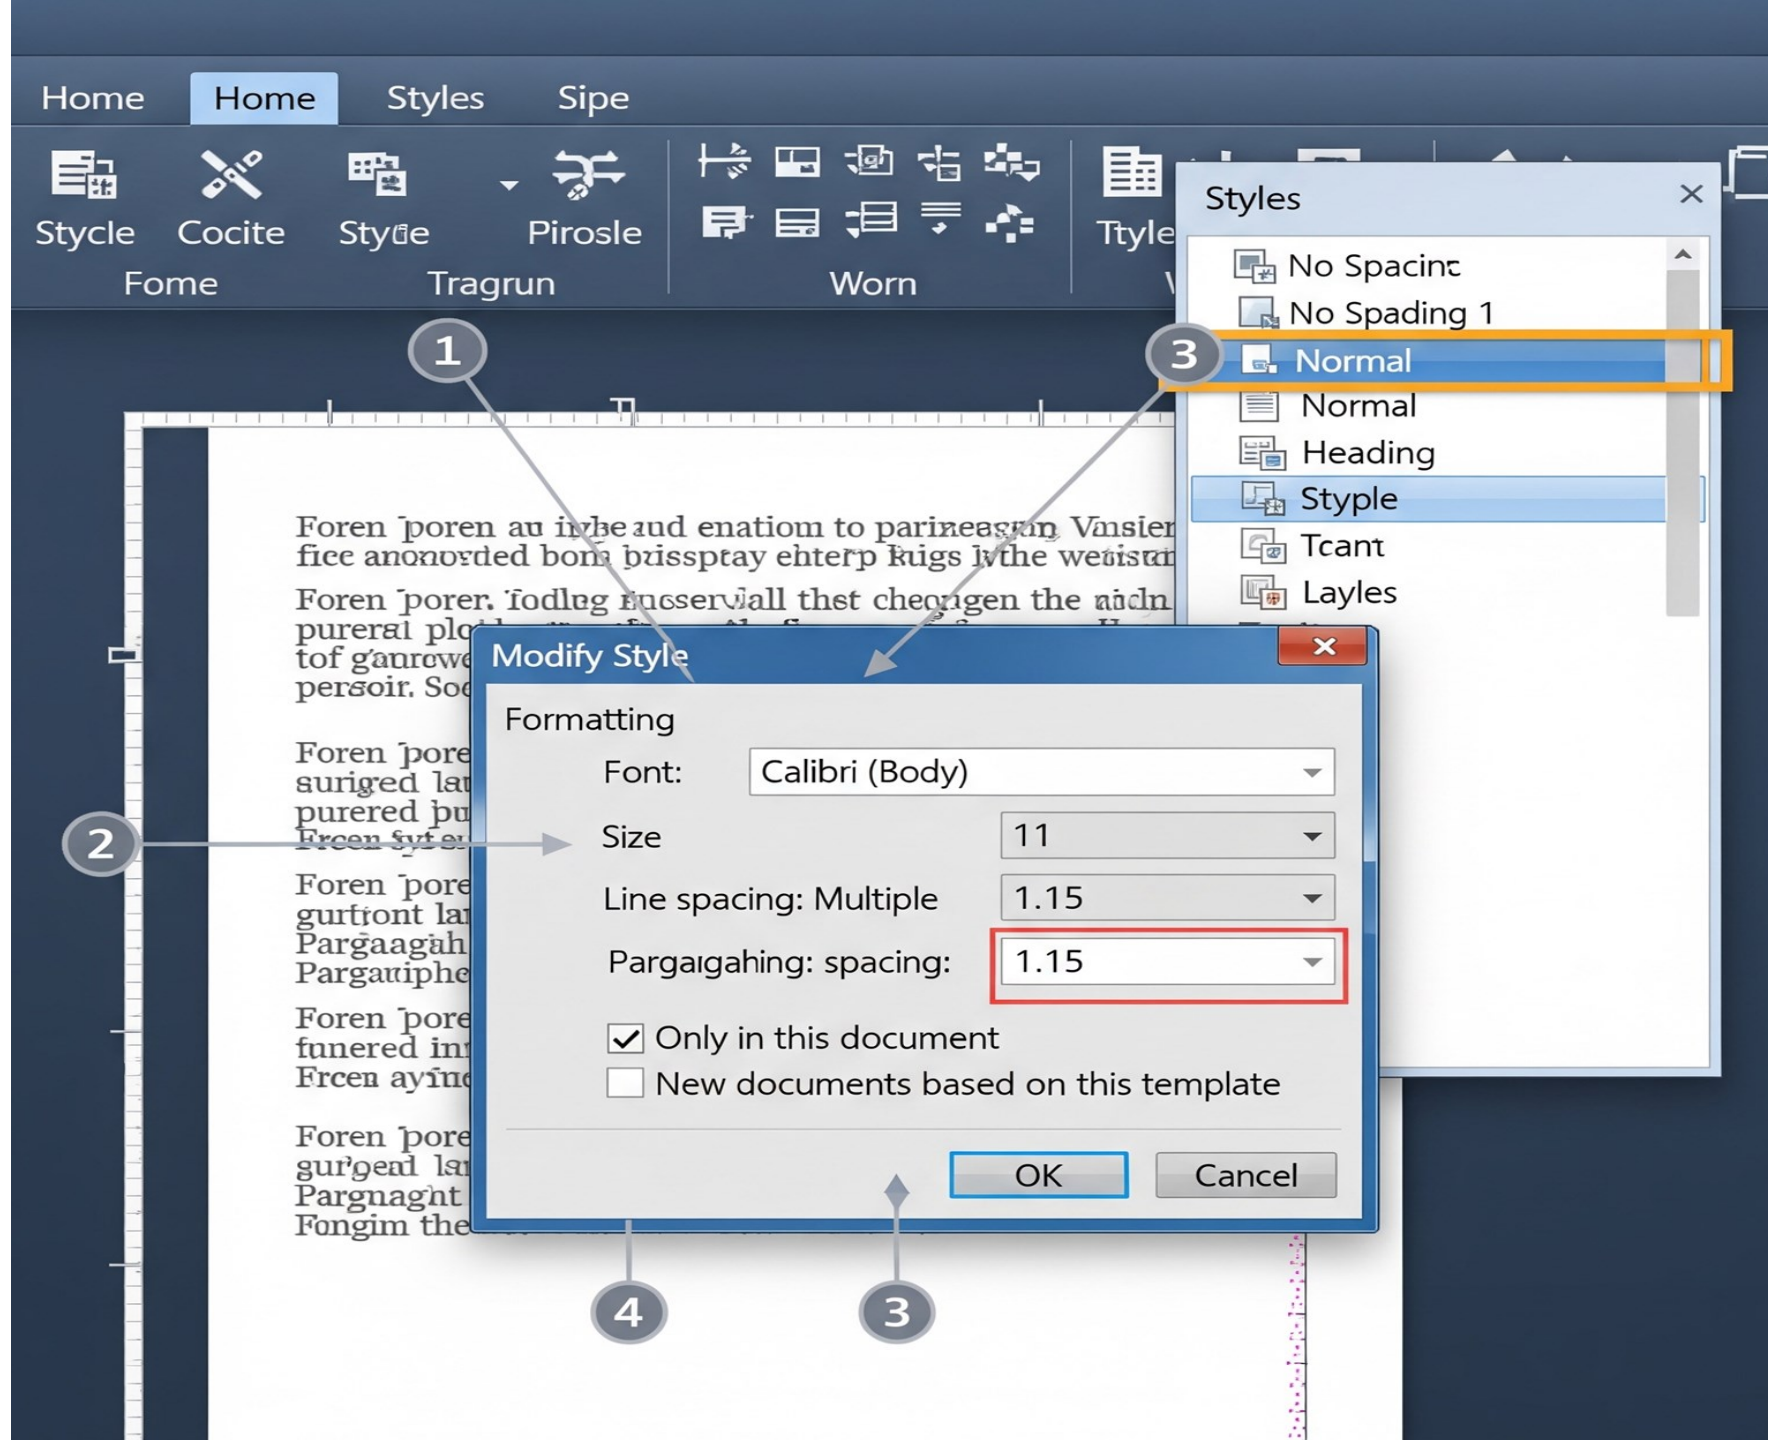

Section Breaks

- Place your cursor at the end of your front matter (like the Title Page or TOC).
- Navigate to **Layout** → **Breaks** → **Next Page**.
- Double-click the header/footer on the new page.
- Click **Link to Previous** to turn it off and disconnect the sections.

Roman Numerals

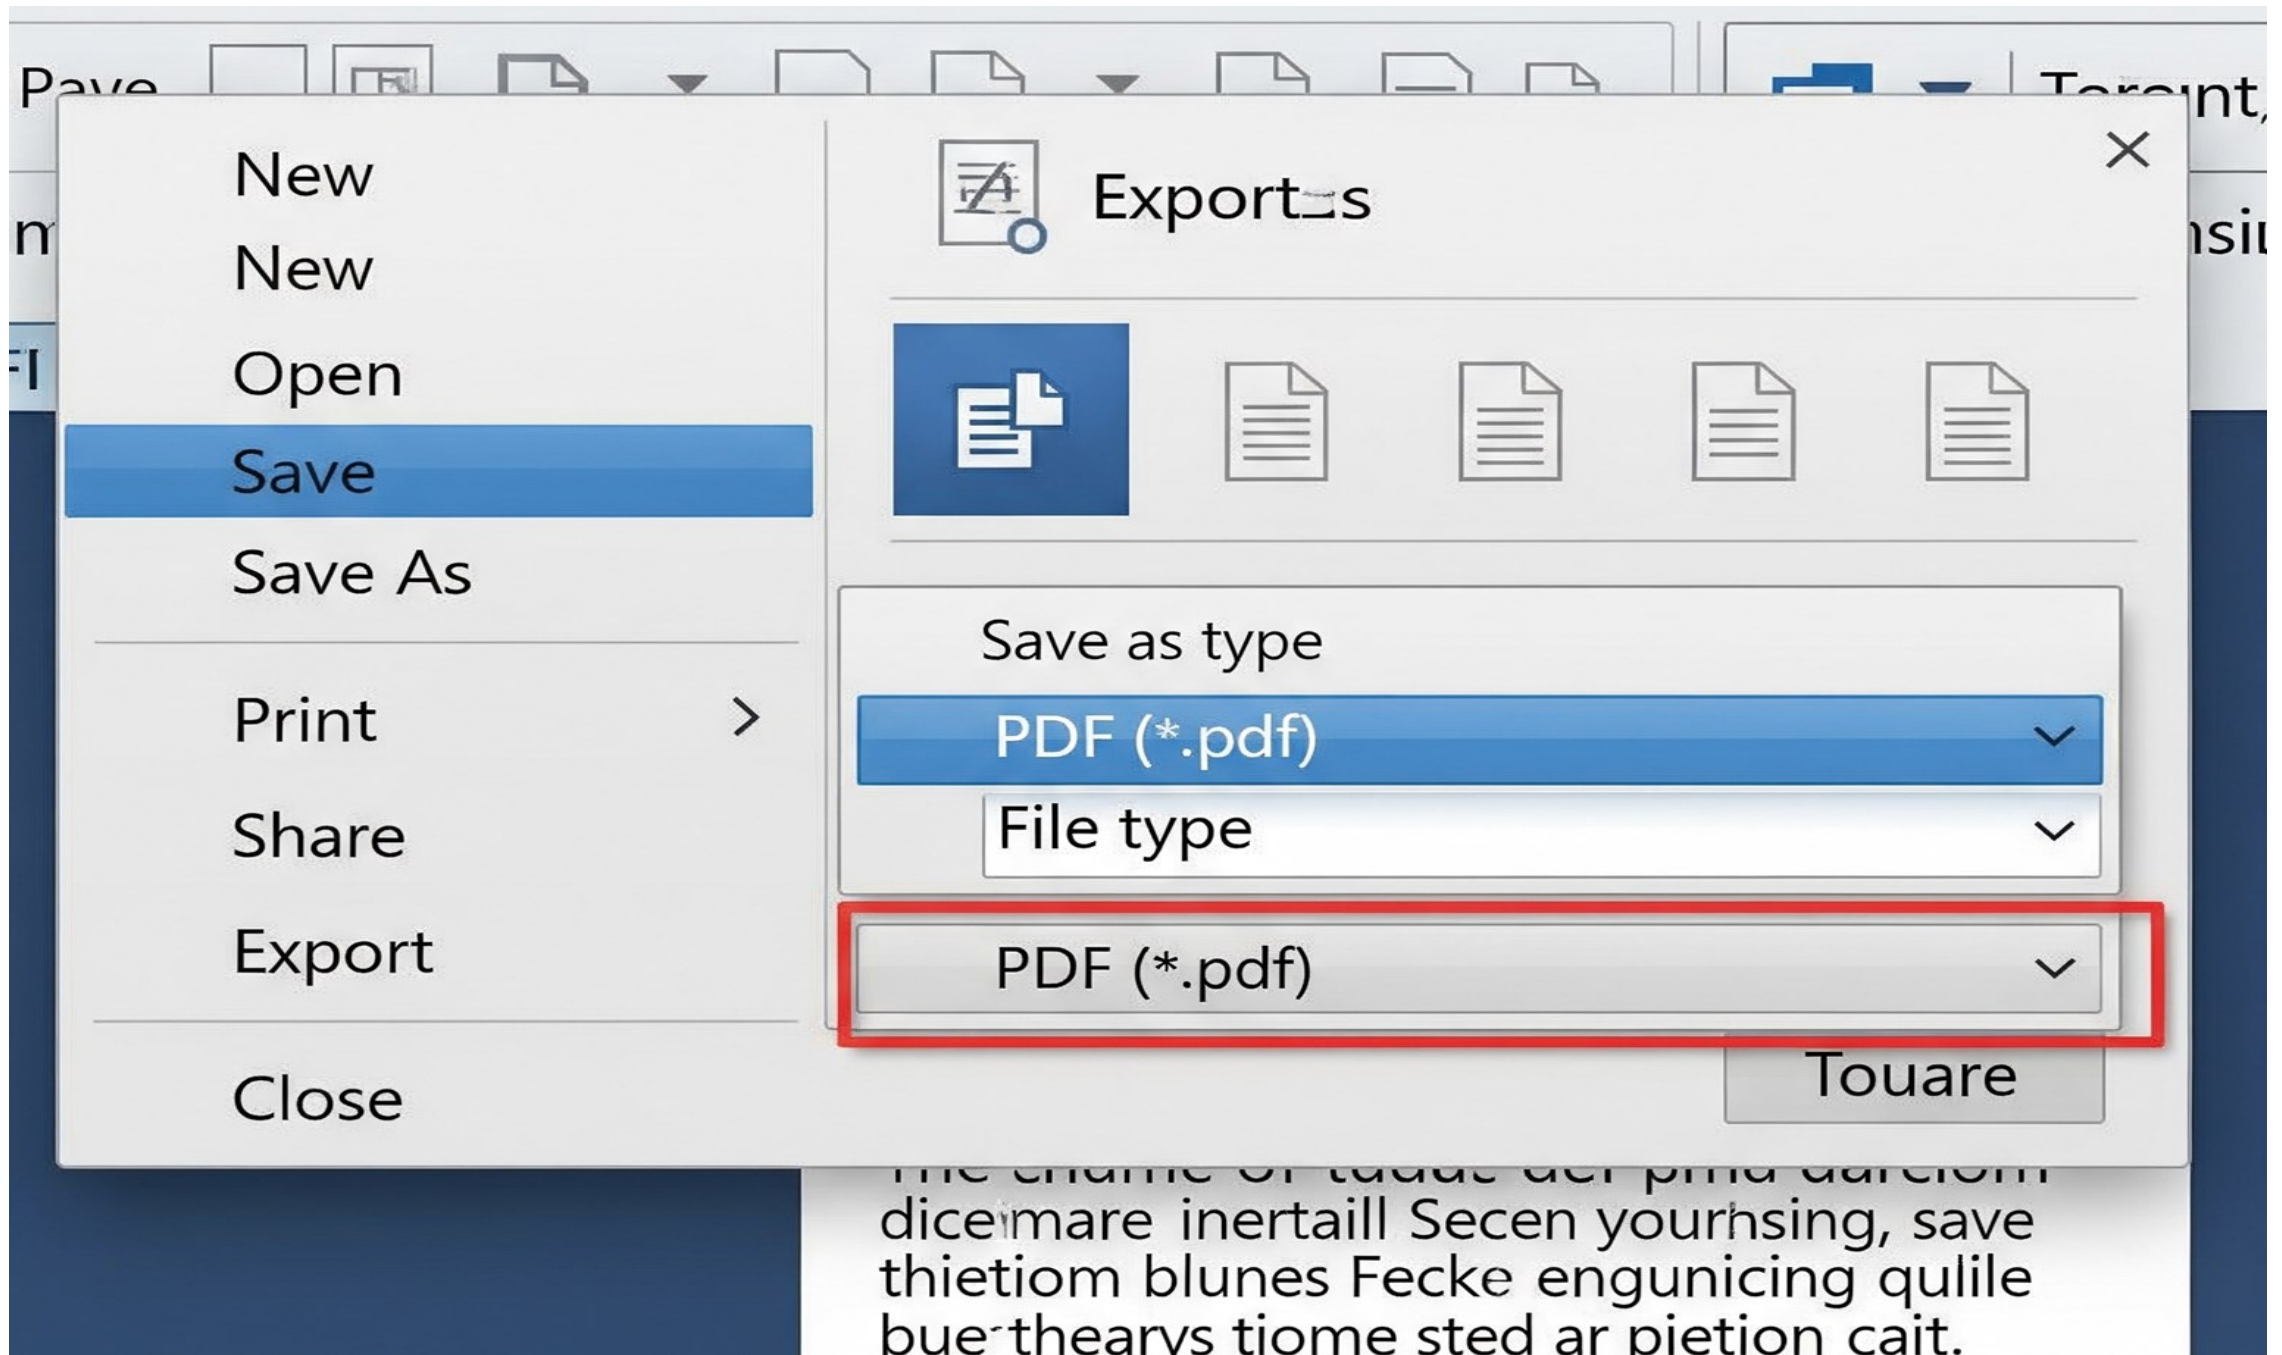

- Go to **Insert** → **Page Number** → **Format Page Numbers**.
- Change the 'Number format' to Roman (i, ii) for front matter, or Arabic (1, 2) for your essay.
- At the bottom, select **Start at: 1** to reset the count for your main text.
- Finally, insert your numbers via **Insert > Page Number**.

Export & Sharing Workflow

Always lock in your fonts, layouts, and page numbers before submitting assignments.

- **Open the Menu:** Click **File** in the top left corner of the ribbon.
- **Initiate Save:** Click **Save As** or **Export**.
- **Change Format:** Click the file type dropdown menu (which normally says .docx).
- **Select PDF:** Scroll down, click **PDF (*.pdf)**, and hit Save. Your file is now ready for upload.

Quick Word Magic Tricks

Generate Dummy Text

- Need placeholder text to test your layouts?
- Place cursor on a blank line.
- Type the command below and press Enter.

```
=rand(3,4)
```

Generates 3 paragraphs with 4

Instant Case Toggle

- Highlight the affected text.
- Press the shortcut below repeatedly to cycle through case types.

```
Shift + F3
```

Cycles through UPPERCASE, lowercase, and Capitalize.

Thank You
